frame buffer and provide said at least one said word of video data to said second pipeline only when said display controller is generating a video display window.

45. (Amended) The display controller of claim 43 wherein said output selector is operable to:

in a first mode pass data from said graphics pipeline; and

in a second mode pass data from said video pipeline when a display position corresponding to a video display window has been reached.

REMARKS

This Housekeeping Amendment is being submitted herewith in response to the Decision, Sua Sponte, to Merge Reexamination and Reissue Proceedings mailed June 8, 2001, requiring that the Specification and claims be identical in both the Reexamination proceeding and in the Reissue application. By the incorporation of the Certificate of Correction into the claims of this Reexamination Application, the Specification and claims are now identical in both proceedings as required by the Examiner.

Respectfully submitted,

MCDERMOTT, WILL & EMERY
